Land & Armaments, Senior Leadership

Mark Signorelli, Vice President and General Manager

Mark is vice-president& General manager of Armored Combat System. Focused on tracked and wheeled vehicles markets servicing both U.S. and international customers, its portfolio includes the Bradley family of vehicles, M88A1/A2, M109 family of vehicles, M113 family of vehicles and the Ground Combat Vehicle (GCV) program. In addition, this business unit also includes the Support and Technical Services Business which will continue to focus on programs in the U.S.

Mark served 21 yrs. in the military as an artillery Officer, he is married and has a son in college and a daughter ready to start next year.

BAE Systems' Sterling Heights Michigan Prototype Facility is the premier center for ground vehicle and weapon systems, assembly, integration and test. The facility helps BAE Systems achieve improved customer collaboration, lower cost and faster-to-market prototype development. This site provides engineering, prototyping and program management for the company's combat vehicles business. The site is home to a four-story LEED (Leadership in Energy and Environmental Design) Gold certified office building; one of three Prototype Facilities that make up BAE Systems' unique National Prototype Network; and a mobility test track that supports vehicle test operations.
