## Saginaw Valley Engineering Council's National Engineer's Week Annual Banquet

# SAE COLLEGIATE DESIGN COMPETITIONS

The Student Chapters of Mid-Michigan Section, SAE International, will report on their efforts to compete in the SAE Collegiate Design Competitions.

The Collegiate Design Series events include the Clean Snowmobile Challenge, Formula SAE, Supermileage, and Mini Baja. By competing in these events, students learn more than just engineering.

To complete a design project and participate on a team develops expertise and skills that are highly valued by the mobility industry. The student chapter presentations will cover the challenges they face, their hands-on experiences and real-world lessons in project management, marketing, public relations, communication, design, cost analysis, manufacturing, and teamwork.

### Speakers:

## Students from CMU, Kettering, SVSU and Baker College's First Robotics Team

The students that participate in these events are clearly "the best and the brightest". We are looking forward to their presentations.

Reservations required by  
Noon Tuesday, Feb. 16

Bernard Santavy
