Mott Community College

1401 E. Court St.

Flint, MI

Program Free.....Lunch Free

The Mid-Michigan Section of

midmichigansae.org

Presented by:

Derek Beebe

A World In Motion
Mid-Michigan SAE

A World in Motion program for Students in grades 3-6 at **Mott Community College**. This program brings industry volunteers into the classroom to show young students science and math can be fun as well as an important learning experience using a JetToy. The program will also include a tour the Technology Labs.

What Is a JetToy? The JetToy is a balloon-powered vehicle involving a simple rolling chassis (vehicle body) and a balloon motor. It can be made to look and perform in different ways to create a variety of moving toys that represent vehicles, animals, or whimsical machines.

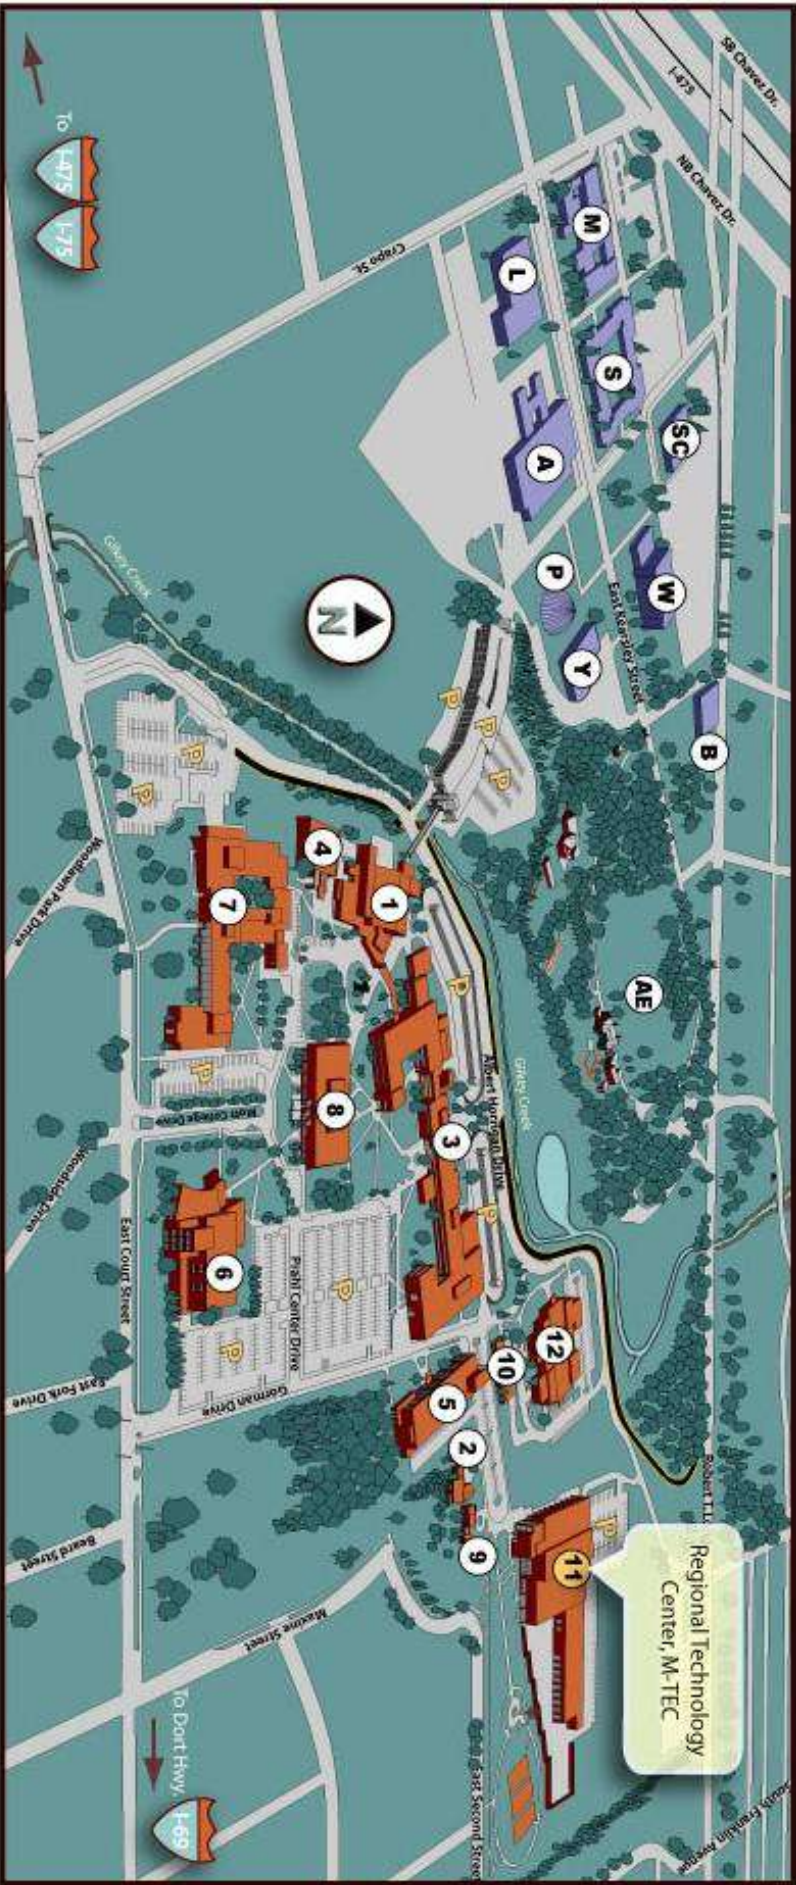

LET'S GET INVOLVED IN THE EDUCATION OF THE FUTURE ENGINEERS & SCIENTISTS to keep the **United States strong**

Reservations REQUIRED by June 2

Please call Bernard Santavy [\(810\) 635-7948](tel:(810)635-7948) or SAEMidMichSec@cs.com
